---

Good Afternoon Michael:

As you may recall from prior emails/comments on the Great Basin UAPCD 2012 Network Plan, the Network Plan includes several air monitors that were removed in December 2012 and are no longer part of Great Basin's monitoring network. Great Basin is looking to relocate the monitors to new sites on land owned by California State Lands Commission and the Bureau of Land Management. Attached is a copy of a letter sent earlier this afternoon outlining LADWP's objections to the proposed relocation of one of the monitors to CSLC property situated adjacent to land already leased by LADWP. You are cc'ed on the letter but I wanted to send it you personally as well and to touch base about the status of EPA's review of the 2012 Network Plan.

I will also be sending to you soon a copy of similar correspondence with BLM relating to the relocation of a different monitor to a new site on BLM land in violation of a right of way agreement between LADWP and BLM.

Please let me know if you have any questions about the attached letter and/or if there are new developments regarding the 2012 Network Monitoring Plan. Thanks and have a great weekend.

Paige
